Summary

I'm a Web Developer working in HTML, CSS, Javascript, and JQuery. I used to be an attorney that mainly worked in corporate finance. Being an attorney taught me how to efficiently communicate my ideas, to anticipate an adverse party's thoughts, and attention to detail. Currently, I'm working on a card game using Javascript and CSS frames.

Projects

Tales of the Cryptocurrency

- This is a multi-page CRUD app that allows users to create a watch-list for monitoring cryptocurrencies and to find the closest cryptocurrency cash machine.
- To build this app I used HTML, CSS, React, Node.js, Express, and Mongo in a 5 day sprint.

Connect Four

- This is an in-browser game for two players to enjoy a game of Connect Four. I built this in a 5-day sprint.
- To build this game I used Javascript, CSS, and Javascript as my technologies.

Shop

- This is a multi-page e-commerce CRUD app to showcase and sell records. This site has login/signup authentication. This was built in a 5-day sprint.
- To build this app I used Ruby on Rails, Bootstrap, HTML, and CSS.

Divide and Costco

- This is a multi-page CRUD app that allow users to connect with each other as they shop at Costco. This was built in a 5-day stretch with 3 other developers.
- To build this app I used HTML, CSS, Node.js, Express, and Mongo.
